### EXAMINER'S AMENDMENT

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 03 September 10, 2008 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Kelly on September 10, 2008.

The application has been amended as follows:

In the SPECIFICATION:

On page 28, line 13, change "--tetrapheyl--" to ---- -tetraphenyl- ----.

On page 28, line 22, change "--tetrapheyl--" to ---- -tetraphenyl- ----.

In the CLAIMS:

In claim 19, line 15, change "--tetrapheyl--" to ---- -tetraphenyl- ----.

3. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicants' arguments that Komano et al does not read on the instant invention are correct. Komano et al does teach polymers with formula (II) present but not formula (I) present. Formula

(I) is required for the allowed process to be performed. Thus, claims 19-27 are allowed. The processes of Konica Corp and Sasa et al are drawn to the manufacture of printing plates and color proof transfers which is not sufficiently related to the instant process of electroplating with the use of a photoresist on wafers to make combination with prior art an obvious variation to workers of ordinary skill in the photoimaging arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sakai et al (US 2007/0237890) is made of record as having an inventor in common and having been considered fully. Sakai et al makes use of polymers having the structure of formula (I) in instant claim 19 but the polymer is used in a sub layer to the photoresist layer when used for forming bumps with solder paste. There are no issues of obvious double patenting with respect to Sakai et al and the instant claimed invention.

*Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Hamilton whose telephone number is 571-272-1331. The examiner can normally be reached on Monday through Friday 8:30 am to 5:00 pm.*

*Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
